

What is Oceo Rover?

A platform solution to deliver consistent solutions on demand

Why Are We Investing in This Technology?

- **To be quicker:** Over 50% time savings
- **To be safer:** Contained, floor level operation
- **To be more consistent:** Driven by automation
- **To be able to expand our capacity:** Do more with less

Why Invest in Oceo Rover Now?

There has never really been any other option until recently, so we have lived with traditional buffer and media make up. However, those traditional methods have limitations:

- High labor requirements
- Unplanned downtime and delays
- EHS concerns
- Limitations to capacity
- Complex supply chains
- Equipment intensive
- Complex training, use, and validation processes
- High documentation/ QA workload

Oceo Rover Is the Infrastructure for Today and the FUTURE

- Reliably deliver consistent process solutions
- Elevate overall equipment effectiveness
- Drive operational flexibility
- Improve facility utilization, smaller footprint
- Lower labor demand
- Safer processing
- Create capacity to increase output and relieve bottlenecks
- Free up resources for more value-added activity
- Simplify planning
- Reduce cost of goods
- Capture productivity improvements in the upstream

Grow the Bottom Line and Be Ready for Tomorrow

If your goal is increased output, corporate objectives met, higher margins, and organic growth, Oceo Rover is the foundation you need.
